

TAO DUONG KHAC

Junior Backend Developer

0977-948-802 | tao.duongkhac@gmail.com | github.com/khactao27

PERSONAL SUMMARY

I'm a junior backend developer (Nodejs). I have web application development experience as a Nodejs backend developer. Future goal to become DevOps engineer. I have major interests in blockchain, bigdata, internet of things. New things are what I am interested in learning. Passionate about learning new technologies. I want to connect people around me who are passionate about technology and guide new technology in the future. I like football, listening to music, coins,... I like to work with clear goals and plans. I hate broken promises.

EDUCATION
